"Love art in yourself, not yourself in art"

Rostan Dsouza II BA

The blue beauty which is the oldest and the strongest of all the blocks in our campus is right in front of the basketball court and it has the best ancient walls and roofs. The block also has the dreamy stars just as where cinderella lost her glass shoes. This block was built in Indo Gothic architectural style and it's always cool to remain here as it has the best ventilations. This is an invitation for all the aesthetic lovers to make sure they visit the 'blue beauty' of Aloysius which is the Admin block. The best pictures one could get would surely be in front of the big tall doors and the pillars of Admin block. The only block which has all the humanities computer science and language departments deeply rooted and bounded
