About St Aloysius University

St Aloysius (Deemed to be University) is a 144-year-old premier higher education institution located in the heart of Mangaluru, a port city, perched on Edgah hill overlooking the Arabian Sea. Under the umbrella of St Aloysius, guided by our motto - *Lucet et Ardet* (It shines to enkindle) and a vision of "Preparing men and women for and with others," St Aloysius runs programs from kindergarten to doctoral level. Imbibing and internalizing the Jesuit Spirit of *magis* (towards excellence) every student leaves the portals of the institution with a spirit of inquiry, inclusivity, diversity and being socially conscious and environmentally informed. From a humble beginning in 1880 to an edifice of national and international importance spanning a century and a quarter, today, St Aloysius stands tall, as one of the premier higher education institutions in the country, committed to make a mark in the ever evolving and challenging field of education empowering the youth for eternity.

School of Arts & Humanities

The School of Arts of Humanities occupies a special niche in St Aloysius University with the faculty and students engaging deeply with society to understand human conditions through various academic programs such as Political Science, History, Economics, Psychology, Sociology, Journalism and Social work. Through internalization of the curriculum, study abroad opportunities, cross-cultural research, outreach programs, partnerships, and collaborative projects, the School is committed to engaging with the wider world enriching the lives of individuals and communities. This conference is a platform for academicians, researchers, professionals, and students to share their innovations, challenges and solutions adopted to achieve sustainable goals. The conference consists of invited talks and oral/poster presentations. It will be conducted in hybrid mode (Online and in-classroom). Conference proceedings will be published in an ISBN/ISSN Book and selected papers presented in the conference will be published in Double Blind peer reviewed Journal with DOI.

About the Conference

Sustainable Development Goals (SDGs), unveiled in 2015 by the United Nations, stand as a beacon of hope amidst the tumultuous currents of our world—a collective covenant guiding humanity towards a harmonious evolution by the year 2030. SDGs serve as universal summons, uniting nations of varied economic standings under the banner of shared prosperity and environmental stewardship infusing a holistic ethos of sustainability across economic, social, and environmental spheres. A total of 193 nations coming together as a global fraternity to fulfill the multitude of SDGs seems overly ambitious igniting debates on the necessity for revolutionary changes in development, financing, and evaluation mechanisms. The evolving landscape of developmental assistance, characterized by new actors and shifting political dynamics, poses a formidable challenge to traditional paradigms.

Driven by the belief that unravelling the complexities of the SDGs demands interdisciplinary collaboration and realization of the SDGs requires valour, adaptability, and a steadfast commitment to learning from experiences, let us converge as a global community at this conference to discourse, exchange knowledge, best practices, and forge partnerships to plan the way forward to ensure a more equitable, peaceful, and sustainable future.

Key Note Address

Prof Ketei Matsui

Dept of Global Citizenship Studies
Seisen University, Tokyo, JAPAN

Technical Session I

Dr Shobha Reddy

Environment specialist & State Leader
Karnataka Inclusive Livelihood Program PRADAN

Technical Session II
